On October 12, 2013, H.E. Most Rev. Alejo Zavala Castro, Bishop of the Diocese of Chilpancingo-Chilapa, announced through a Pastoral Letter the recognition of the Eucharistic Miracle that occurred at Tixtla, on October 21, 2006. In the letter we read: "This manifestation brings to us a marvelous sign of the love of God that confirms the Real presence of Jesus in the Eucharist... In my role as Bishop of the Diocese I recognize the supernatural character of the series of events relating to the Bleeding Host of Tixtla... I declare the case as a "Divine Sign ...".
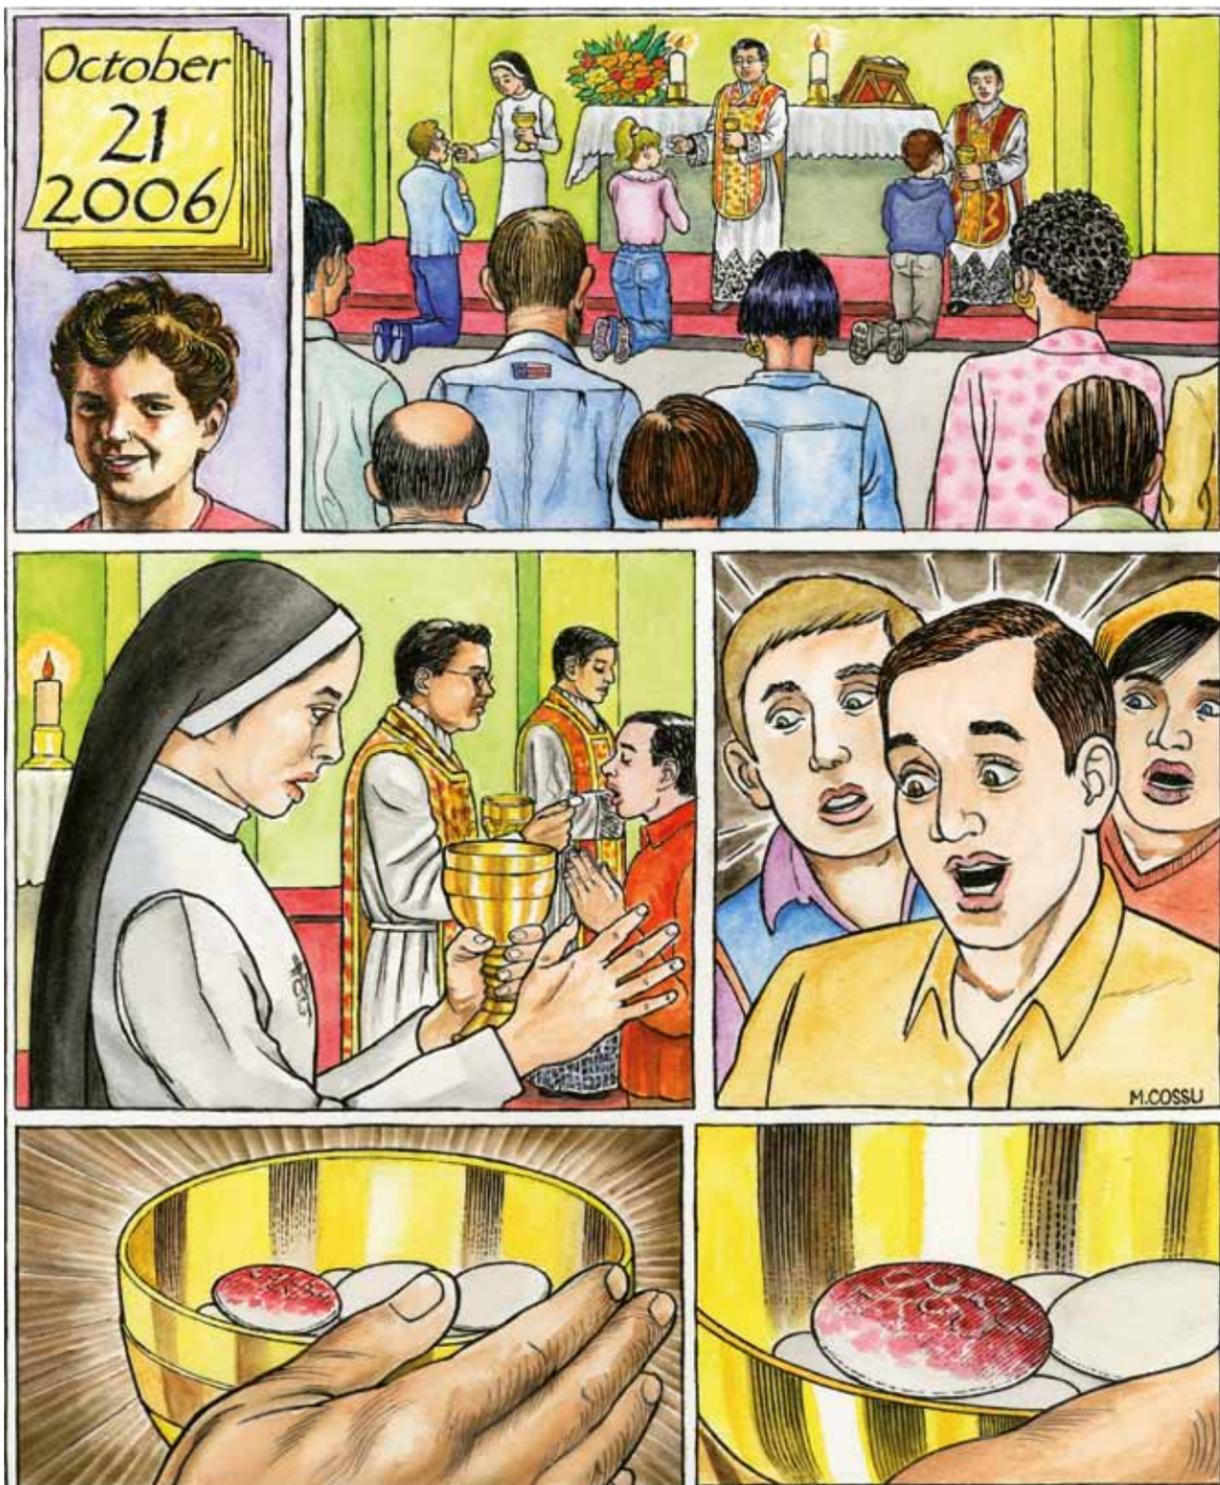

On October 21, 2006, the *effusion of a reddish substance* was noted from a consecrated Host during the Eucharistic Celebration at Tixtla, in the Diocese of Chilpancingo-Chilapa. The Bishop of the place, Most Reverend Alejo Zavala Castro, then convened a Theological Commission of investigation and, in October 2009, he invited Doctor Ricardo Castañón Gómez, to take on the leadership of the program of scientific research whose purpose was in fact that of verifying the said event. The Mexican Ecclesiastical authorities turned to Doctor Castañón Gómez because they were aware that, in the years 1999-2006, the scientist had conducted some studies on two consecrated Hosts that also bled in the Parish of Saint Mary, in Buenos Aires. The Mexican case starts in October 2006, when Father Leopoldo Roque, pastor of the Parish of Saint Martin of Tours, invites Father Raymundo Reyna Esteban to lead a spiritual retreat

for his parishioners. As Father Leopoldo and another priest were distributing Communion, assisted by a religious sister who was to the left of Father Raymundo, this latter one turns towards him with the "pix" containing the Sacred Particles, looking at Father with eyes filled with tears, an incident that immediately attracted the attention of the celebrant: the Host that she had taken to give Communion to a lady parishioner had begun to effuse a reddish substance.

The Host which bled
